DETAILED ACTION

Specification

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 14-17 and 64-66 are rejected under 35 USC 112/2d as being indefinite due to reference "class 1 AEL level"

When a claim makes reference to an industry standard, such as "class 1 AEL level", it may be rejected under 112/2d as being indefinite, as rules change over time. Therefore, it is inappropriate to have the scope of a claim change with time. Since the organizations implementing standards meet regularly and have the authority to modify standards, any connection a claim may have to these standards may have varying scope over time. The other aspect arising from this is enablement. If the regulation or standard changes, the disclosure may no longer support the limitation.

3. Claims 1-13, 18, 19-22, 24-34, 37-40, 55-60, 62-63 and 67 are allowed.
